LIRR Service Options to **UBS Arena**

New Elmont Station

A brand-new LIRR station is opening for the first time in almost half a century! The new Elmont Station, located between Queens Village and Bellerose on the LIRR's Hempstead Branch, is part of the Belmont Park Redevelopment Project, which includes the 19,000-seat UBS Arena, new home of the New York Islanders and an exciting venue for concerts and other events. The **eastbound** platform at the LIRR's new Elmont Station is complete. While construction continues on the westbound platform through 2022, **eastbound** customers can use the new Elmont Station for service to the UBS Arena starting in November 2021. Initially, **only Hempstead Branch eastbound service will be offered at Elmont Station**. This service will be available immediately before and after games or events at UBS Arena.

Travel Options

Depending on where you are coming from, there are three possible stations you could use for service to the UBS Arena. Until the westbound platform at Elmont Station opens in 2022, your routes to and from the event might not be the same, as you will not be able to travel westbound from Elmont for your return trip. Look inside to help plan your trip to and from the UBS Arena. For schedules and fares, download the LIRR TrainTime app or visit www.mta.info.
