## BUDGETWATCH February 2014 Flash Report

#### **Overall Latest Condition:**

Overall net results were slightly favorable to Budget as unfavorable operating results from January snowfall mostly offset favorable subsidy results. Combined passenger and toll revenues for January were \$16.1 million, or 2.9% unfavorable, while operating expenses were \$27.9 million, or 3.6% unfavorable. Much of that was from higher weather-related overtime and its impact on fringe benefits. January debt service costs were \$4.5 million, or 2.6% unfavorable. Subsidies through February YTD were net favorable as higher tax receipts from real estate transactions (Urban Tax) were partially offset by lower Payroll Mobility Tax receipts.

#### **Passenger and Toll Revenues**

Total	\$540.9	\$557.0	(\$16.1)	-2.9%

Passenger revenues were \$14.1 million, or 3.2% below Budget, reflecting overall lower ridership attributable to the significantly higher monthly snowfall. Revenues were down by 3.8% at both NYCT and MNR, while revenues were up by 1.4% at the LIRR due to slightly higher ridership and average fares. Toll revenues were unfavorable by 1.6%, again reflecting lower traffic levels attributable to the higher monthly snowfall.

#### **Total Operating Expenses before Non-Cash Liability Adjustments**

	Month of Jan	uary 2014 (	\$ in millions)

	<u>Actual</u>	<u>Budget</u>	<u>Diff</u>	% Diff
NYCT	\$563.9	\$530.5	(\$33.3)	-6.3%

B&T	32.4	34.1	1.7	4.9%
Total	\$806.6	\$778.7	(\$27.9)	-3.6%

Overall, preliminary expenses were unfavorable by \$27.9 million, or 3.6%. NYCT was \$33.3 million unfavorable due to higher labor expenses mostly attributable to the unusual monthly snowfall (\$20.9 million – mainly overtime and other fringe benefits), and higher non-labor expenses (\$12.4 million – mostly in professional services and partly due to timing charges from 2013, materials & supplies, and maintenance and other operating contracts). The LIRR was favorable by \$2.0 million due to lower non-labor expenses (\$4.2 million – mainly maintenance and other operating contracts, professional services, other business expenses and claims) which were partially offset by higher labor expenses (\$2.2

million - mostly from overtime, reimbursable overhead and other fringe benefits). MNR was favorable by \$1.7 million mainly due to lower contract and professional services costs offset by higher overtime costs and lower overhead reimbursements. B&T was favorable due to lower payroll costs from vacancies.

#### **Overtime**

	Month of Janu	uary 2014 (	in millions)	
	Prelim <u>Actual</u>	Adopted Budget	Diff	% Diff
NYCT	\$43.2	\$29.7	(\$13.5)	-45.4%

B&T	2.3	2.1	(0.2)	-9.0%
Total	\$63.6	\$44.6	(\$19.0)	-42.6%

Overtime was \$19.0 million, or 42.6%, unfavorable to Budget and reflects the increased coverage requirements resulting from the above-normal snowfall that occurred in January.

#### **Debt Service**

Debt service costs for January were \$180.9 million, which was \$4.5 million, or 2.6%, unfavorable to Budget due primarily to timing.

#### **New State Aid**

Notes: 1) MTA Aid includes the License Fee, Vehicle Registration Fee, Taxi Fee, Automobile Rental Fee.

February Payroll Mobility Tax (PMT) receipts were \$15.2 million, or 8.3%, below Budget. YTD receipts were also below Budget by \$20.3 million, or 6.4%. It is important to note that February results can be significantly impacted by the timing and amounts of annual bonuses in the financial services industry. Also, some of this may be due to timing of transfers by New York State. PMT receipts are being monitored closely to determine if a negative trend is developing. MTA Aid receipts are not expected until March when the first quarterly payment is made.

#### **State Dedicated Taxes**

Petroleum Business Tax (PBT) receipts for February of \$71.2 million were \$20.3 million favorable, reflecting a timing reversal of the unfavorable variance in January. On a year-to-date basis, PBT receipts of \$99.9 million were on target. The first MMTOA payment is not anticipated until May 2014.

<sup>2)</sup> PMT replacement funds totaling \$307 million for the year, excluded from the results reported in this table, are projected to be received in five equal installments of \$61 million.
