1. APPROVAL OF MINUTES

The Minutes of the September 26, 2011 Audit Committee Meeting were approved.

2. AUDIT COMMITTEE WORK PLAN

The Committee Chair indicated that there is no meeting scheduled for December. The next meeting is scheduled for January 2012 at which time the results of the 2011 third quarter financial statement review will be discussed. The Committee was also advised that there will be five meetings scheduled in 2012.

3. REVIEW OF AUDIT COMMITTEE CHARTER

The Committee Chair informed the Committee that the Charter has been changed to reflect the requirement that all members of the Audit Committee be familiar with corporate financial and accounting practices and the required minimum number of annual Audit Committee meetings as stated in the Charter has been reduced from six to four. The actual number of meetings in 2012 will be five. This change had already been approved at a previous Governance Committee meeting which was held just before today’s Audit Committee meeting.

4. REVISIONS TO MTA INTERNAL CONTROL PROGRAM

Lamond Kearse (MTA) briefed the Committee on proposed revisions to the MTA’s Enterprise Risk Management and Internal Control Guidelines. He pointed out that these guidelines, which establish an effective system of internal controls, were last reviewed by the MTA Board in 1990. The proposed revisions include providing a common nomenclature and the same risk assessment modules for all of the Agencies to follow as part of their Internal Control Program. A motion was made and seconded to approve the proposed program revisions.
5. **2011 AUDIT APPROACH PLAN**

David Jones (D&T) briefed the Committee on Deloitte’s approach for the 2011 annual audit of financial statements. He introduced the supervisory staff for the audit and indicated which agencies and/or functions they will manage. He also referred the Committee’s attention to a copy of the proposed 2011 MTA Client Service Plan and advised that it is not for distribution. He briefed the Committee on the preliminary planning process and the rather lengthy process of reviewing the financial statements to identify areas of potential misstatements and the corresponding review of controls which would prevent those errors from occurring. A plan of testing is then developed to determine whether those controls can be relied on. He also directed the Committee’s attention to page 16 of the plan which listed the areas of audit focus for 2011. He indicated that Deloitte has reviewed a number of areas at the BSC including Accounts Payable, Fixed Assets, Payroll, General Accounting, and Treasury, and testing of the internal controls at the BSC will continue. Finally, he briefed the Committee on the Risk Assessment process and directed the Committee’s attention to a copy of Deloitte’s latest peer review which was included in the information provided to the Committee.

6. **INFORMATION TECHNOLOGY REPORT**

Wael Hibri (MTA) directed the Committee’s attention to the MTA Enterprise section of the “Information Systems Security & Controls Report” that was provided in their agenda package. He pointed out that the report consists of three main sections, Enterprise IT Initiatives, Security Oversight, and Key Control Areas. He indicated that reviews of the various applications in use at the MTA has resulted in a savings of $25.8 million; the consolidation of computer rooms has netted a savings of $13.3 million; and the consolidation of two redundant wide area networks is forecasted to save the MTA a total of $13.7 million. In addition, security monitoring has been turned over to NYC Transit, which should save the MTA a total of $4.1 million. In total, these and other actions should save the MTA $77.2 million over the next five years.

7. **MOTION TO ADJOURN**

A motion was made and seconded to adjourn the meeting.

The next meeting of the Audit Committee is scheduled for January 23, 2012.

Respectfully submitted,

Michael J. Fucilli
